

Marine Science Institute

Inland Voyage Parking and Set-Up Instructions

School _____

Program Date _____

1. The Inland Voyage program arrives via a van that pulls a trailer-mounted, mobile aquarium behind it. Since this unit is both transport and life support for the live marine organisms, the Inland Voyage programs need to be presented close to the trailer. We need an area accessible to the van that is large enough to set up a two-station program for approximately 30 students. This area can be **inside, or outside**. If it's outside, please make sure that the area is shaded and protected from the weather.

Please describe the area you've chosen:

2. Please give detailed instructions for arrival and parking. **Please attach a site map if possible.**

3. Please make any additional comments below.

Please return as soon as possible to:

Marine Science Institute, 500 Discovery Parkway, Redwood City, CA 94063-4746,
OR FAX to (650) 364-0416.
