Together, We Make Waves

Join the Marine Science Institute in
expanding access to hands-on marine
science education and inspiring the next
generation of environmental stewards.

Every Wave Creates Change

Waves of Change is Marine Science Institute's first large-scale fundraising event. The evening will bring together 100-200 donors, community leaders, corporate partners, and ocean advocates to celebrate and support the future of marine science education.

Guests will enjoy a cocktail reception, auction, inspiring stories, and opportunities to connect with others who share a passion for protecting our Bay and expanding access to hands-on environmental education.

As Marine Science Institute's first fundraising event of this scale, Waves of Change offers sponsors the opportunity to help launch an exciting new chapter for the organization while gaining visibility among an engaged philanthropic audience.
